Work Experience

Dhira

Software Engineer

Remote

May 2024 - Present

- Implemented authorization and authentication with Keycloak, enhancing productivity.
- Developed serverless applications using Cloudflare Workers and Hono.js.
- Designed a complex data model for a database.
- Generated data for the intricate database structure.
- **Technical Skills:** Angular, PostgreSQL, Prisma, DBMS, Data Model, Data Warehouse, ETL

Selenova Business Solutions Private Limited

Full Stack Developer

Remote

Sept 2023 - Feb 2024

- Enhance bank form processing through the integration of Naonets OCR API and ChatGPT API for automation, which leads to 60% less human work.
- Elevated development efficiency with TypeScript's type safety features, resulting in a 20% increase in productivity.
- Deployed JWT authentication with seamless integration into the database.
- **Technical Skills:** React Js, Typescript, ZOD, WebHooks, Shadcn UI, Express, Tailwind, MongoDB
- **Soft Skills:** Teamwork, Time Management, Communication.

Bartleby

Computer Science Expert

Bangalore, India

Jan 2022 - Oct 2023

- Solved 5000+ computer science questions on Bartleby.
- Featured in top solver list multiple times.
- **Technical Skills:** Data Structures and Algorithms, Database Management Systems, SQL, Computer Networking, Java, JavaScript.

Projects

Open Source Contribution

React Js, Tailwind CSS, JavaScript

April 2024 - Present

- Enhance the user profile interface using Tailwind Css
- Streamlined form validation by implementing ZOD validation, reducing development time by 30%
- Integrate backend APIs with the frontend.
- **GitHub**

JetSetGo

React Js, Tailwind Css, MongoDB, Express Js, Node Js

Personal

July 2023 - Aug 2023

- JetSetGo is a flight booking web app with user authentication for admin and regular users. It includes flight search, passenger details for Razorpay payment, and admin features like adding, deleting, and updating flights.
- **Login Credential:** username: sagarmikeylevi@gmail.com | password: 1234
- **Live | GitHub**

Skills

Frontend Technologies	Next JS, React Js, Angular, JavaScript, TypeScript, Redux, React Router Dom, ZOD, Tailwind CSS, Shadcn
Backend Technologies	Node JS, Express JS, MongoDB, Java, Postgres, Prisma, Database Management, Data Modeling
Version Control	Git, GitHub

Education

Techno India University

Bachelor of Computer Applications

Kolkata, India

Jun 2017 - Aug 2020

- **Courses:** Programming in C, Object-Oriented Programming using C++, Data Structures, Computer Networks, Web Programming, Computer Architecture, Algorithms.

Languages

English	Professional proficiency
Hindi, Bengali	Native proficiency
